Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

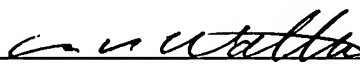

Sir:

Pursuant to the requirement contained in the Office Action mailed September 12, 2007, applicant hereby elects invention Group II, claims 17-22, drawn to a light emitting device comprising a semiconductor light emitting element and a phosphor which converts a part of a luminescence spectrum emitted from the semiconductor light emitting element, more specifically, when said phosphor is an alkaline earth metal boric halide phosphor including at least one element represented by M selected from the group consisting of Mg, CA, Ba, Sr and at least one element represented by M' selected from the group consisting of Mn, Fe, Cr, Sn.

In view of this election, a full examination on the merits of the present application is respectfully requested.

Respectfully submitted,

Yoshinori MURAZAKI
